

# XP Spectro

**Fotona**  
choose perfection

## More Than Just an Aesthetic Laser

### Technology

XP Spectro combines Fotona's gold standard, long-pulse and QCW Nd:YAG lasers in a single multi-application platform that allows you to easily integrate non-ablative aesthetics with popular surgical procedures, such as laser lipolysis or endovenous laser ablation.

#### Features:

- Gold Standard, High Performance Nd:YAG Laser
- Optional Surgical QCW Nd:YAG Laser
- Advanced Scanner for Greater Precision, Speed and Efficacy
- Exclusive FRAC3® Treatment Modality
- Enhanced Safety and Efficacy for all Skin Types
- Convenient Treatment Parameter Management System

### Applications

Under arm hair removal
